Dear Collector,

It is a real pleasure to report that the interest and enthusiasm shown by collectors and dealers in 1972 continues to grow in 1973. The demand for choice numismatic material is at an all-time high and buying enough quality coins is a difficult project for every dealer. For that reason, we are particularly pleased to be able to offer here for the first time, the outstanding K.T. Murray collection of U.S. gold coins, as well as many other outstanding items that we have purchased in our highly successful buying campaign. As always, each coin in this list is accurately described and graded as well as fairly priced, and if the tremendous response to our Rare Coin List #3 is any indication, most of them will certainly not last very long!

Along with gold coins, U.S. silver dollars and commemorative coins continue to be the "hottest" items on the market and no one delivers the quality dollars and commemoratives that Paramount does. Our Mint State grading system for dollars (but unfortunately not always our ultra-high standards) has been copied by major dealers from coast to coast. Very soon we will make available to anyone who requests it, an informative and entertaining booklet on silver dollars, discussing every date from 1878 to 1935. Oversize photos will explain the Mint State grading system and this booklet will be a "must" for anyone interested in silver dollars.

Although Rare Coin List #4 contains one of the finest selections of rare coins to be offered in many years, there is always the possibility that the particular item you need for your collection is not here. If so, let us know what it is and we will do our best to obtain it for you at the best possible price. Of course, when we do find the items you want, there is no obligation on your part to buy, only the opportunity to do so if you wish. This is just one of the many services available to you through our Personal Service Department and if you have any questions about this department and how it can help *you* build your collection, please call me at (513) 836-2654. Thank you.

1798 Fine 32.50
1800 Normal date. A very pleasing specimen. VF 59.00
1801, 1/000, S-223. An interesting die variety, as this coin has the advanced stage 3rd die break at Liberty's bust, connecting it to the rim. However, it does not have the delicate die break on the reverse connecting the "d" of United to the rim, as most coins of this type do. According to Sheldon, this coin is "highly prized because of its error (1/000 fraction reverse), and often sold as very rare". This particular piece is quite a pleasing Fine 49.00
1801 S-224. VG 17.00
1802, 1/000. S-228, R-2. The rarest type of the 1802 cents listed in Scott's Catalogue. A very nice VF 75.00

SHIELD NICKELS

1866 First year of issue of the U.S. nickel 5 cent piece. Popular for type collecting as this is the only year that rays were included on reverse on all "nickels" made. Note: In 1867 both varieties were struck. VF, $17.50; AU, $49.00; BU, better than average strike, $120.00; BU, usual weak strike, $99.00; BU, full shield lines... 179.00
1866 Sharply doubled date. Scott's quote, "rare in uncirculated", perhaps finest known. The original digits in the date having been cut too high and too far to the right, cause this rare Doubled Date when the correction was made. BU, choice 325.00

"Our Main Objective"

HALF DOLLARS

1794 Mintage of 5,300 pieces. A rare coin and a popular one as this is the first year of U.S. half dollar issues. AG obv., VG rev 220.00
1795 Extremely popular as a type, lower price than '94. VG, $159.00; F . 249.00

1796 16 stars. The king of all U.S. type coins. Less than 4,000 were struck in three varieties, in the two years of this type (1796-1797). And this variety in the rarest. F 4250.00

1801 The scarcest of the bust right, Heraldic eagle reverse design half dollar. This particular coin is not only a scarce date, but is a rare Overton variety. (102). Listed as Rarity 5, (31-80) known. This rare coin is a very pleasing F, and is priced at 239.00

1803 Large 3. Small stars, 12 arrows. O. 101, R.3. Scarcest type of 1803 by design. F 75.00
1803 Large 3. Small stars, 13 arrows. O. 102, R.4. Scarcest 1803 half by die variety. VG-F, $59.00; VF 125.00
1806 Over inverted 6. O. 111, R.5. Rare in any grade, but particularly so in a condition such as this specimen. Possibly one of the finest known. EF 450.00

QUARTER EAGLES

1796 No Stars. Choice AU, prooflike. A high grade example of a first and only year of type. Only 963 minted and rarely available. In great demand by type collectors 10,000.00

1796 With Stars. EF. Considerably rarer (R-7) than the no stars variety. In fact, this was one of only several coins in the entire $2½ series that was missing from the Gilhousen collection 8750.00

1807 AU. This is the finest coin of this popular type we have had in stock for more than a year! Excellent surfaces and a very pleasing coin 2250.00

1808 AU, choice. Only one year of this type and therefore one of the most sought after of all U.S. gold coins. Usually available in VF or less, this is an extraordinary example of this rare date. A coin only a bit better sold last summer to a dealer for $14,000. A remarkable opportunity to obtain a coin that is worthy of the finest collection 12,500.00

1852 BU, choice 295.00
1852-O VF-EF, $87.50; EF 110.00
1879 BU, prooflike 175.00

1882 EF, $295.00; BU, gem. Absolutely unimprovable! A very underrated date (as are many Liberty quarter eagles) with a low mintage of only 4067 coins 795.00

1885 BU, prooflike. One of the lowest mintage (887) liberty head quarter eagles. This is a beautiful prooflike coin and well worth 995.00

1886 AU, prooflike 325.00
1895 Gem Proof, lightly toned 1050.00

1911-D AU. The rarest and most popular date in the Indian Head series with its 55,680 mintage less than one-fourth that of the next scarcest date (1914) 475.00

1860-S VF-EF 425.00

1863 EF, $575.00; AU. A very underrated coin in all grades, and virtually unobtainable in full mint state. This coin has considerable lustre and is very pleasing overall ... 795.00

1864 EF, sharp 650.00

1865 EF. One of the rarest and most undervalued coins of the 1860s. Certainly one of the least available dates in the entire $3 gold series . 850.00

1870 BU, choice, prooflike. A low mintage of 3535 and as Taxay states "Very Rare In Unc." In fact very few uncirculated specimens have ever been offered for sale, and this is one of the best 1150.00

FULL RETURN PRIVILEGE—Any item may be returned within five days of receipt for a full and immediate refund.

1873 EF. Although the mint report states that only 25 pieces were struck, slightly more are known. Still this is probably the third rarest $3 gold piece after the 1875 and 1876. An AU coin in the Gilhousen sale brought $2600 and so this coin, a very pleasing EF, is a good buy at just 1950.00

1874 VF, $299.00; EF, $450.00; EF-AU, $525.00; AU, choice . 675.00

1877 Ch. AU. Prooflike. A seldom offered rarity. We are pleased in this Rare Coin List #4 to be able to offer a number of the rarest threes, such as the 1865, 1873, 1877, 1881, and 1885. This 1877 is one of the nicest offered since the choice Miles specimen realized $1400 over 4½ years ago 1950.00

1878 AU, $625.00; BU 950.00

1881 EF. The lowest mintage (554 minted) three struck for general circulation. As Breen states, "generally found in F or VF when available at all". Probably R-6 (less than 30 pieces known) 1195.00

1885 Ch. AU. Another of the many ultra low mintage three dollar gold pieces. Rare in all grades and usually available only at auction 1350.00

1886 Brilliant Proof. A fantastically beautiful coin! The 1886 is rare in any condition (only 1142 minted!) and in the ultimate grade, proof, is a major rarity seldom offered 2750.00

1888 AU, choice, prooflike, $795.00; BU, choice. All strictly uncirculated three dollar gold pieces have been setting records lately as collectors are beginning to realize their true rarity. This glittering coin sells for only a little more than a common date and yet is many times more rare 1100.00

HALF EAGLES

1804 Choice AU, full frosty mint lustre 950.00

1808 VF-EF 595.00

1810 Large 5. BU 1195.00

1811 Small 5. BU. An outstanding coin with full frosty mint lustre. An excellent choice for a top quality gold type set 1195.00

1812 VF-EF, $595.00; EF 695.00

1814 EF 875.00

1818 Ch. AU. This popular type boasts many of the most famous U.S. gold rarities including the 1815, 1819 and 1822. This coin has full frosty mint lustre and just the slightest trace of wear on the cheek and hair. An excellent coin for the type collector 1400.00

1834 Motto, Plain 4. Choice BU. Undoubtedly one of the prize offerings in this entire list. Next to the 1832 half eagle, this is the rarest gold coin of the 1830's. Taxay notes that the 1834 Motto $5 is "excessively rare in Unc." and we can find no record of a comparable coin offered in many years. The Miles coin was AU and it was the same coin as in the Wolfson collection. DiBello was lacking this date and the few others offered in the last decade were EF or less 6750.00

1834 No Motto, Plain 4. VF, $110.00; VF-EF, $159.00; EF, $195.00; EF-AU, $235.00; AU 395.00

1835 VF-EF 169.00

1836 VF-EF, $159.00; EF, $195.00; BU. A beautiful, sharply struck coin. The Red book valuations for uncirculated coins of this short lived type are unrealistically low. They are far rarer than their mintages would indicate 675.00

1838 EF-AU 215.00

1861-D Unc., satin-like surfaces and deep gold color. By far the rarest Dahlonega mint five and seldom seen above VF if at all. Only 1597 struck before the Confederacy took over the Dahlonega mint on April 8, 1861 ..... 5500.00

1864 Ch. Unc. Taxay claims "Unknown in Unc." but here is a really beautiful specimen! Certainly the finest known with an exceptionally sharp strike and full mint lustre 1750.00

WE ARE INTERESTED

1864-S EF, sharp strike. One of the major rarities of the Liberty head half eagle series (In fact, only the 1841-O and 1854-S are more rare) Probably less than 6 in existence and except for the gem Unc. Melish coin, this is quite likely the finest known. When the fabulous Miles collection was sold in 1968, the cataloguers noted that only one 1864-S had been offered in over 20 years! Even the World's Greatest Collection and the Wolfson collection which were virtually complete in this series, lacked this rare date. Another one may not be offered for many years 3250.00

1866 AU, choice, prooflike. Not the highest priced, but one of the rarest dates in the five dollar series. Extremely rare even in EF. We have never seen a comparable specimen of this date and feel that it is probably the finest known non-proof 950.00

1868-S VF 130.00

1872 Ch. Unc., Prooflike. A beautiful, sharply struck coin with full proof surfaces. A meager 1690 pieces struck with very few still available. This is far superior to the Wolfson, Walton, or Miles specimens and is probably the finest offered in years 1750.00

1872-S F-VF 110.00

Order with complete confidence. Our grading standards are the highest in the entire coin field.

1876-S Ch. AU. An exceptionally rare coin. Even though the 4000 mintage is low, it gives no hint as to the real rarity of this date. Missing in the Wolfson and Pierce collections. The Miles coin was just VF and realized $390 over 4 years ago! This is certainly the finest known, far superior to the EF-AU coin we sold at the 1969 ANA auction. 1750.00

1879-CC VF-EF 295.00

1880-CC F, $95.00; VF, $139.00; EF-AU 225.00

1892-O BU. In a recent Stack's sale, the cataloguers noted that an extremely fine 1892-O was the finest they could recall offering in five or ten years. Of the 10,000 minted, not more than 100 pieces exist today and few, if any, are the equal of this one 1750.00

1795 EF. An extremely attractive specimen of this popular small eagle type. A coin only slightly better sold at the Gilhousen sale for $5250! This coin is reasonably priced at 3950.00

1796 Gem Unc., prooflike. Perfectly struck and centered with virtually all the characteristics of a proof. As a date, this coin is at least R-5 and in this condition, it is unsurpassed. Undoubtedly a presentation piece, perhaps struck, as Breen surmises, on the occasion of Tennessee's admission to the Union. Whatever the reason, this is one of the most exciting gold coins it has ever been our pleasure to offer for sale. The ultimate coin for the type collector or the intrepid collector of eagles by date 25,000.00

1797 Large Eagle. Ch. Unc., prooflike. Nearly a match for the remarkable 1796 just described. The reverse is simply outstanding with a full prooflike surface. The obverse is very nearly as good and even disregarding the rarity of the date, this is as fine an example of this type as we have ever offered for sale . 6500.00

1799 Ch. AU. An excellent type coin 2100.00

1801 EF, polished, a bit rough 750.00

1804 AU. The last eagle to be struck for 34 years and so most of the small mintage was probably melted. Rarity 6 meaning less than 30 specimens known in all grades and excessively rare in the beautiful condition we offer here 2100.00

1838 EF 895.00

1841 VF 110.00

1842 Small date. EF..... 165.00

1844 EF. One of the rarest Liberty Head eagles and usually available only in Fine or Very Fine. Missing in many major collections. This is one of the better specimens recently offered for sale 750.00

1857-S EF-AU, possibly finest known . 450.00

1862 VF 195.00

1863-S EF-AU. Having considerable mint lustre, this is possibly the finest known specimen of this unappreciated rarity. The Wolfson and Shuford coins were only VF and the DiBello collection was missing this date. Although the mintage is low (10,000), the 1863-S is far more rare than this figure indicates and possibly less than 10 specimens have been auctioneed over the years ... 1600.00

1864 EF. Another rarity in the $10 series and Taxay notes that it is Rarity 6. A very underrated coin and this one is sharp and pleasing 795.00

1865 AU, prooflike. The $10 series abounds with rarities and here is another, comparable to the 1863-S and 1864. This 1865 has clear fields and full lustre. Outside of the few proofs known this is one of the finest ever offered for sale, surpassing the Miles and Shuford coins by at least a full grade. The many Civil War gold coins in the high grades we offer in this list are extremely rare and generally underrated. With the current demand for "date gold", we expect the prices of these rarities to soar in the next few years 1900.00

1872 Gem Proof. An incredible coin of absolutely breathtaking quality! Frosted head contrasted against flawless mirror fields. Less than a dozen of the original 30 proofs survived and virtually all are impaired (eg. the Miles coin). But not this one! This gem represents the ultimate for the collector of rarity and quality 10,000.00

1874-S EF. One of the finest known... 365.00

1876 EF-AU. Only 732 minted and probably less than 15 specimens known today. Both Wolfson and Shuford lacked this rarity while the Miles coin was only a polished EF. Few, if any others, have been sold in the past ten or fifteen years. This is a very pleasing specimen with considerable mint lustre . 2200.00

1877 AU, prooflike. Very nearly as rare as the 1875 which sells for over $10,000! Taxay considers the coin High Rarity 7 (4-6 known) and Breen states that the coin is "of great rarity". 1861-O VF-EF. The mintage figure of 5000 shown in the Redbook is incorrect. The actual figure is 17,741 with the additional 12,741 being struck by the state of Louisiana and the C.S.A., and therefore not included in the Mint Report. Still a very rare coin, much in demand .. 1095.00

PIONEER GOLD

Oregon Exchange Company, 1849 $5, VF-EF. A rare and seldom offered coin. Called the "Oregon 5 dollar gold Beaver" because of its obverse design. This specimen is sharper than usually seen with some of the Beaver's fur still evident. A similar coin at the Forrest sale brought $4000 last September and we recently saw a coin with similar wear but minor damage (ours has none!) on the West Coast priced at $4900. This is a real buy at 3900.00

Mormon, 1860 $5. Ch. AU. The last of the Mormon gold coins with a lion reclining to the left and "Holiness To The Lord" in Mormon characters on the obverse. An eagle behind a beehive on the reverse. Rarely offered for sale except at auction 2900.00

Clark, Gruber & Co., 1860 $10, AU, choice. One of the rarest and most popular Pioneer gold coins. Pike's Peak is pictured on the obverse. The only collectible coin with this design as the similar $20 coin is excessively rare 3500.00

Moffat & Co., 1853 $20. EF. A far better than average example of this popular Pioneer gold coin. Supposedly struck shortly after John L. Moffat retired from the U.S. Assay Office 895.00

Clark, Gruber & Co., 1860 $5. Sharp AU 795.00

Wass, Molitor & Co., 1852 $10 Large Head variety. Sharply struck EF 1175.00

Kellogg & Co., 1854 $20. Nice EF-AU 995.00

Kellogg & Co., 1855 $20. EF, remarkably free from bagmarks. 950.00

The 1973 NASC auction was the greatest sale in Paramount's history realizing nearly half a million dollars! Many records were set and the catalog and prices realized should be an important part of your numismatic library for future reference. If you do not have a catalog or have not already ordered your prices realized list, send $2 and request "1973 NASC catalog and Prices Realized."

A Comprehensive Listing of Morgan and Peace Dollars

With the exception of proofs, no special care was taken with United States silver dollars after they were minted. Invariably they were placed loose in 1000 dollar bags before being shipped or stored. As a result, virtually every silver dollar has some surface and/or rim abrasions and nicks. These abrasions and nicks are commonly referred to as 'bagmarks'. The number and severity of these 'bagmarks' is important to the silver dollar collector and can greatly affect the desirability and price of a given coin. You will notice in our explanation of Mint States 60, 65, and 70, that particular attention is given to the bagmarks, since they, more than any other factor, determine a given coin's mint state.

It is also a fact that some coins are more sharply struck than others. The sharpness of strike of a given coin shows up most noticeably in the hair over the ear and in the feathers on the eagle of both Morgan and Peace Dollars. All other factors being equal, a sharply struck coin will invariably command a premium over a weakly struck one of the same date. (This premium can be very substantial if the coin in question usually comes weakly struck as in the case of some New Orleans and San Francisco mint coins). Sharpness of strike is another important factor in Paramount's silver dollar grading system.

Here then is a capsule explanation of our mint state grading system as applied to United States Silver Dollars. If you have questions about this grading system or anything concerned with silver dollars, please write or call Mark A. Thornton at (513) 836-2654.

> **A mint state coin is one that has never been in circulation and has absolutely no signs of wear. The following three mint state descriptions all apply to strictly uncirculated coins. The difference between mint states is determined by the bagmarks and the sharpness of strike.**

Mint State 60—A Paramount Mint State 60 (MS-60) coin is what most silver dollar dealers call 'choice BU'. It has an average number of surface and rim abrasions or 'bagmarks'. Depending on the particular date, an MS-60 coin may or may not be sharply struck. The coin is still an attractive, undamaged coin showing no signs of circulation.

Mint State 65—A Paramount MS-65 coin is of the quality that most dealers call 'BU gem'. It is a fully lustrous uncirculated coin with very few bagmarks. A noticeable superior coin to an MS-60, with considerably fewer and less severe bagmarks. In most cases, a more sharply struck coin than an MS-60 coin of the same date.

Mint State 70—A Paramount MS-70 coin is for the collector who wants only the very best available. It is a sharply struck coin (for the date) with full original mint lustre. As close to perfection as an uncirculated silver dollar can be, with virtually no bagmarks of any kind.

Complete Set of Morgan Dollars

For the person who wants to start at the very top, we offer here a complete set of Morgan dollars (excluding overdates and overmintmarks) in the finest condition imagineable! It has taken us many months to assemble this outstanding set and around the Paramount offices we call it our "superset". The coins range from MS 65 to MS 70 (the 1895 is a gem proof) and each coin is the finest of its date that we have been able to acquire. Our price for this showcase set is only $35,000

The Only U.S. Coin Struck at All Seven Mints

Only the United States half eagle bears this unique distinction. This set is traditionally popular and we have not been able to offer it for several months because we simply haven't had the coins in stock! However, as a result of our recent purchase of over $200,000 in United States gold coins, we have been able to assemble a few of these sets in various grades.

Imagine owning a set of coins representing each of the seven United States mints including Philadelphia, Denver, San Francisco, Carson City, New Orleans, Dahlonega and Charlotte. The Charlotte and Dahlonega issues are real conversation pieces in themselves. These two Southern mints produced only gold coins between 1838 and 1861. Dahlonega and Charlotte are also known for their rather low mintages, but the New Orleans half eagle is probably the rarest of them all, especially in the better grades.

W. W. Turner in his book *Gold Coins for Financial Survival* states, "This set is a must for every important gold coin collection." In addition, there is *no other way* to collect all seven mints in the same denomination.

The coins we have assembled are conservatively graded and are mounted in a custom plastic holder at no extra charge. Dates will be of our choice but will be carefully matched to enhance the beauty and value of each set. The supply is very limited!

Coins of Great Britain

Traditionally such items as foreign coins have not received much attention from collectors, but this situation is rapidly changing. As a result of the growing interest in foreign issues at recent auctions, we have incorporated British coins into this Rare Coin List. Included are many of the more significant issues from this popular country. We are aware of the growing interest in British coinage in this country and feel fortunate to have such an extensive selection of these historical coins including many rarities at this time.

In 1971, Great Britain changed its monetary system from the pound sterling to the decimal system. Consequently, none of these denominations (representing over one thousand years of British coinage) will ever be issued again! The nostalgia associated with these pieces makes them as interesting as they are significant. For instance: during the reign of Henry VI (1422-1471), in the midst of severe inflation, seven half-pennies or 3½ pence would buy a loaf of bread; in contrast, during the rule of Elizabeth I not quite one hundred years later (1558-1603), five pence could buy a round of ale for the house, winning a man a hundred new friends! During that same period, one penny would buy a day's feast of gingerbread, or nine sparrows for your lady's fancy. Twenty years later, during the rule of James I, a shilling would pay one admission to see Shakespeare's Henry VIII, or buy a commoner a fine pair of breeches. All of these coins (and more) are represented in this catalogue.

Included in this list are many exceptional coins representing an investment opportunity that should not be overlooked. Many of the coins are listed at prices that are only a fraction of their potential value since serious British collecting is still in its infancy. As a result, this is an excellent opportunity to get in on the ground floor and acquire some tremendously rare coins before prices go up. These British pieces have what every collector is looking for: quality and value at unbelievably inexpensive prices!

Many of the coins will be very rare and one-of-a-kind so we suggest that you give alternate choices wherever possible.

TRIAL PIECE In 1920 the British government reduced the shilling composition from .925 fine silver to .500 fine, alloyed with a .500 fine nickel mix. In 1947 they completely debased their shillings to nickel. However in 1923 and 1924 they did run trial strikes in nickel and this was the governments first consideration towards that complete debasement that followed some 24 years later. Both of these specimens are proof and both are Rarity 5 (5-10 known). A rarely encountered opportunity to obtain one of these rare and interesting pieces. 1923, Proof $365.00; 1924, Proof. 350.00

FLORINS

1848 Actually a pattern, the florin of 1848 is Britain's first attempt at decimalization. The reverse reads one tenth of a pound. Since the issue of decimalization remained so unpopular, it did not come about until 1970. Called the godless florin due to its lack of 'dei gratie' in the obverse legend, it was issued in proof. Plain edge, Proof, faint hairlines, $199.00; This one particular coin (photoed) is in a beautiful state of preservation, with full wire rims and a beautiful iridescent toning. A magnificent coin. Very pleasing Proof 269.00

AUSTRALIA

1937 Penny. George VI on the obverse and kangaroo on the reverse. Gem Proof! One of the four pieces struck as certified by the Australian Mint. Like the 1808 and 1954 British Pennies offered in this list, the 1937 Australian penny is one of the world's most famous numismatic treasures. We know of no other specimen for sale now (or likely to be) at any price. With the $100,000 figure tossed around for many coins that are much less rare, we feel that our asking price, established several years ago, is most reasonable 39,750.00

CANADA

1925 **One Cent, Matte Proof. This is the lowest mintage Canadian small cent. It is a very rare coin in high grade and almost unknown in the beautiful Matte Proof condition we offer here. We cannot recall seeing another such specimen offered for sale for many years. .875.00**

The following three coins are part of the very rare 1911 Matte Proof Set. All 1911 Canadian coins have the now famous "Godless" obverse (Dei Gratia, "By The Grace of God" was omitted from the legend.) and are scarce and popular in all grades. These Matte Proofs are among the most prized of all Canadian Coins.

Maundy Sets of England

Maundy coins have been popular among collectors for many years, but it was only recently that collectors began to realize the true scarcity of these sets in relation to other foreign coins. The total number of sets struck for any one year is extremely small when compared to proof issues of coins from other countries. In fact, 80% of the Maundy issues have mintage figures which are considerably lower than the 1936 U.S. Proof set . . . yet they are available at a fraction of the cost!

The Maundy sets derive their name from the Maundy Ceremony, a service of the Church of England held on the Thursday before Easter, the day commonly called Holy Thursday. These services are part of the Easter observance and are based on the events of the Last Supper when Jesus Christ washed the feet of his disciples and delivered his commandment or "mandatum", from which comes the word "Maundy". Early records indicate that some form of this ceremony has been conducted in England since the fifth century. At that time, selected aged and poor citizens received a meal and had their feet washed. The Sovereign did not become active in the ceremony until centuries later, at which time the ceremony became known as the Royal Maundy. Gifts of clothing or cloth, food and money were added to the ceremony but today, the alms consist only of money . . . the Maundy coins . . . which represent the original gift.

For the past sixty years, the mintage of these sets has remained between one and two thousands per year, with the exception of the 1937 coronation set of King George. In addition, interest in British proof coinage as a whole has been aroused by the recent announcement that England has authorized a British Millenium Proof Set to commemorate more than 1200 years of English sterling system. As a result, the English Maundy Sets are experiencing an upsurge in popularity that is currently shared by other varieties of obsolete British proof sets.

Each of these historic sets contains four silver pieces: one penny, two pence, three pence and four pence. Dated from 1800 to 1965, these high quality coins span the reigns of six monarchs. Many of the sets are one of a kind in our stock, so alternate choices are appreciated whenever possible.

TWO OF THE WORLD'S MOST FAMOUS RARITIES

1808, British One Penny. Choice Unc., beautifully toned.

UNIQUE! This rare and beautiful coin traces its pedigree to the estate of Matthew Boulton, Esq., proprietor of the famed Soho Mint. This famous penny is in uncirculated condition and is the only known specimen of this date! It will definitely become the showpiece of anyone's collection. If a "once in a lifetime" opportunity is an expression appropriate in numismatics, then this is certainly it! $50,000.00

1954, One Penny. AU. Unique! Although 2000 pieces were struck, this is the only known specimen. It was retrieved from circulation which accounts for its slight amount of wear and adds to its charisma. Ex. C.W. Peck collection. This famous rarity has been the subject of many magazine and newspaper articles . . . and even a parliamentary debate!

It is difficult to price a numismatic treasure such as the 1954 British penny. No amount of money could buy another one. However, with many more common (and certainly no more famous!) coins selling in the 50 to 100 thousand dollar range, we feel that $40,000 is a very reasonable sum $40,000.00

Over the past few months, Paramount has sold literally thousands of gold coins to collectors and investors alike. As the price of gold continues to fluctuate on the open market, many gold coins are becoming increasingly hard to find in any quantity. We can't say when we will have the opportunity to present you with a selection of foreign gold as fine as that contained in this listing, since each day it becomes more difficult to replace the gold coins we sell. So don't be disappointed; place your order today!
